To: Parents and Guardians of Grafton Residents

Re: **ADULT DAY SUPPORT CLOSURES**

Dear Parents and Guardians:

Grafton has taken many actions to prepare for the current pandemic, and values the health and safety of our residents above all else. As you know many of our adult clients have complicated medical conditions that render them at even greater risk than the general population. Therefore, given the risk of Covid-19 to our adult clients most particularly, we are taking action to limit the potential of exposure.

As part of our effort to prevent the possible spread of contagion, we will be closing our Adult Day Support programs (Integrations in Richmond, and ADAPT in Winchester) to all participants from outside of Grafton's residential service effective Monday, March 16, 2020. Given program structure in Winchester we will be operating ADAPT on a modified schedule, in which one group will participate in day support activities per day on a rotating basis. Further, Grafton adult residents who participate in day support programs outside of Grafton will no longer attend those programs temporarily. This interruption in services will occur from March 16 - March 27. If it must be extended we will communicate during the week of March 23.

If you have any questions please contact your assigned case manager at Grafton, or the Executive Director of the site (Allyson Davis for ADAPT, and Tony Sanders for Integrations), or contact Grafton administration at communications@grafton.org.

Thank You,
